THE GAZETTE.

THURSDAY MORNING, MARCH 10, 1859.

"A very shrewd Mexican of my acquaintance describes the difficulties of executing the Hooffand's German Bitters; McMunn's Elixer of feet fluidity, and great ease of transfer from pen to have in this manner; he says: When a case Opium; Gargling Oil; Rushton's Cod Liver Oil; paper, coupled with its ready but tenacious comlaws in this manner; he says: When a case is called in Court, a lawyer gets up on one side and talks and talks, and when he sits down another jumps up on the other side and in like manner talks and talks, and the Judge cannot tell him to sit down because, under the Constitution, he has a right to talk, when the head of the Judge gets so completely to wool-gathering that he can give no de-Spanish, nor the client or jury English, the Just received and for sale by JAMES ENTWISLE, Jr., consequence of which is, that the lawyers have to speak in a jargon betwixt and between (confronting Court and client, and jury) about as intelligible as that which was so successbly huri at you a great many oaths; summon him before the Alcalde, and the Alcalde is afraid; and when the trial comes on, the POR COUGHS, COLDS, &c.—Jayne's Expec American draws out a great many laws, and finally pays you up in the Constitution!-These little things will probably give you a better idea of the true difficulties to be encountered in the acquisition of Mexican Terri-tory than pages of grave speculation on the JOHN LEADBEATER & SON, tory than pages of grave speculation on the subject." - Cor. New York Day Book.

A NEW SYSTEM OF INSURANCE. They have a sort of honesty insurance system in England, which might be introduced into our country with profit to all concerned. A corporate company is organized, sale by who make it their business to guarantee the integrity of any clerk which they recommend, the clerk paying a premium, and the company issuing bonds to secure the employer against loss. Under this arrangement the company keeps a strict watch on the clerk's private acts in the same manner that an insurance inspector looks after combustible material in the insurance of property. By this means the employer is relieved of the duty of tracing the private habits and conduct of the employee, leaving it to the party who is no doubt more thorough in his supervision.

"HOLD ON, DAR." The Piqua (S. C.) Register has the follow-

ing, in a recent issue, describing an incident among the slaves:

Quite a revival is now in progress at the African Church in this city. We were present a few evenings since, and witnessed, with much gratification, their earnest devotion. Of the incidents we cannot fail to note one. A brother was supplicating the throne eloquently, when another brother called out Glenn's Ambrosial Shaving Tablet; Bailey's Ess. in a stentorian voice. "Who dat pray'ng ober dar?"

The response was, "Dat's brudder Mose. "Hold on dar, brudder Mose!" was the dictum of the former, "you let brudder Ryan pray, he's better' quainted wid de Lord dan you am." Brudder Mose dried up, and brudder Ryan prayed.

THE GAMBLER'S WIFE.

One night of last week a married lady of Detroit, who had long suspected that her husband was a regular attendant of a certain gambling room, and was there spend-ing the money which she and her children were in pressing need of, visited the room. Seated at a rough table she descried her the Hair, and Burnet's Kalliston, for removing husband in company with three companions | dandruff, scurf, &c. DINING OUT.

We met with an Indian on Trinity river, travelling by himself and carrying a huge pine bur, which he had provided for dinner. He stopped on a big flat rock and prepared to dine, and having beaten the seeds from the bur with a small stone, he ate them with manifestations of an extremely good appetite. Having dined, the rascal had the audacity to pick his teeth with the apparent satisfaction of a casual Astor House boarder, and started on his journey with nothing on but a shirt of very indecorous brevity. We thought he afforded a very striking illustration of true American independence .- Trinity Journal,

Affection of Dogs for Their Masters .-Dogs have been known to die from excess of joy at seeing their masters after a long ab-Powder, a superior article, for sale by PeEL, STEVENS & CO., sence. An English officer had a large dog, which he left with his family in England, while he accompanied an expedition to America during the war of the Colonies. Throughout his absence the animal appeared very much dejected. When the officer returned home, the dog, who happened to be lying at the door of an apartment into which his master was about to enter, immediately recognized him, leapt upon his neck, licked his face, and in a few minutes fell dead at his feet. A favorite spaniel of a lady recently died on seeing his beloved mistress after a long absence. Anecdotes of Dogs, by Ed-
